CHEMINDUSTRIAL SYSTEMS, INC.

TANKS - HDPE VERTICAL DOME TOP TANKS

High Density Polyethylene Tanks for a variety of services including:

- Water Storage
- Wastewater Surge
- Neutralization
- Chemical Feed
- Chemical Storage
- Aquaculture

HDPE offers low cost and wide chemical resistance. Check today to see if your process allows you to use these economical vessels.

Flat bottom, vertical cylinder, dome top tanks offer maximum volume per dollar cost and minimum cost site preparation. Threaded lids and molded level markings are standard.

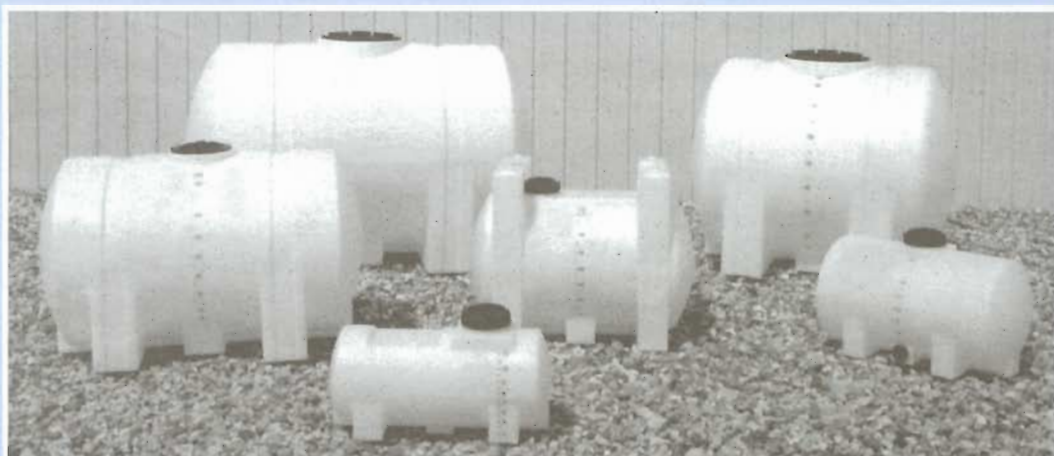

ChemIndustrial can also provide:

- Tie-down configurations
- Inlet and outlet connections
- Extra heavy walls for high density liquids
- Colors: White is standard. Black, blue, red, orange, yellow and green are available

Cone-bottom tanks are available in some sizes. Use these where full drainage is necessary.

P.O. Box 500, Cedarburg, WI. USA 53012-0500 • FAX (262)375-8559 • Phone (262)375-3570

Horizontal tanks are often the best choice for mobile applications or where vertical space is a problem.

Free-standing leg tanks are shown. Tie down provisions are standard. Other standard and optional features are similar to those for vertical dome top tanks.

ChemIndustrial also offers horizontal tanks with steel cradles as an alternative to molded legs.

Capacity	Weight	Diameter	Height	Fitting	Lid
15 gallon	11 lbs.	14"	30"	1"	5"

AGITATORS

ChemIndustrial™ vertical shaft, low RPM, high torque, multi-blade, agitators are available for most cone bottom and vertical tanks in this brochure.

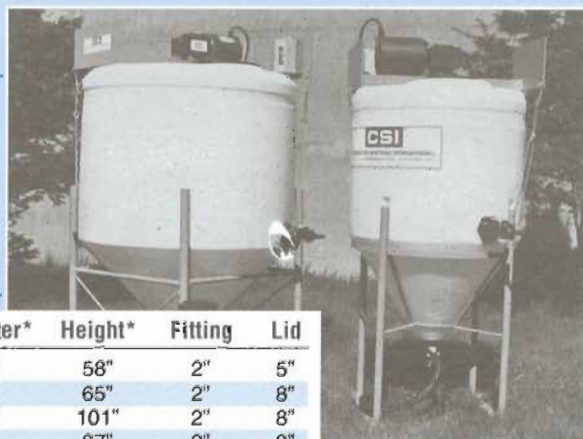

CONE BOTTOM TANKS

ChemIndustrial™ Cone Bottom Tanks are a good choice for chemical feed tasks.

When equipped with agitators they are ideal for mixing, suspending and dissolving. Stands are included with all cone bottom tanks.

Capacity	Weight*	Diameter*	Height*	Fitting	Lid
75 gallon	75 lbs.	32"	58"	2"	5"
200 gallon	157 lbs.	47"	65"	2"	8"
350 gallon	200 lbs.	47"	101"	2"	8"
500 gallon	320 lbs.	57"	87"	2"	8"

* Includes stand

Pallet tanks are ideal for maximizing the liquid storage capacity of a given floor area. Stacking tanks are available. ChemIndustrial also uses these tanks as components in modular, skid mounted blending and batching systems.
